

safety fencing

FOR SWIMMING POOLS

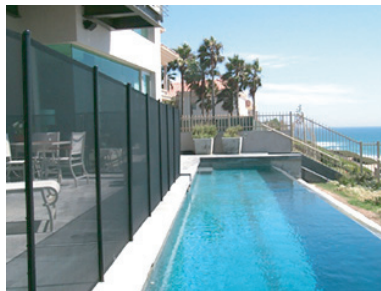

allsafe pool fencing

Children are attracted to the sparkling blue waters of a swimming pool. Drowning is the second leading cause of death in Europe. Prevention is the key.

Transparent mesh fencing with a climb resistant nature offers the perfect solution to the frequent swimmer looking to be able to quickly access their pool. Adults can gain easy access through the manual or self closing gate or totally remove the fence during times when a child barrier is not required.

- Removable in minutes
- Transparent mesh
- Climb resistant
- 5 year guarantee
- Convenient access to the pool for adults
- Conforms to, in accordance with French standard NFP 90-306 and certified by the LNE

“Pool Safety is NO Accident!”

Our company has been installing the pool safety products in the Algarve since 2006 and has installed over 50 units in that time. We can offer you a professional service from an experienced team.

For further information please do not hesitate to contact us. For more information about our products visit our website www.iberiablue.com.

Remember pool safety is NO accident!

David and Amanda Mitchell
www.iberiablue.com

There is no substitute for adult supervision, safeguards and barriers around the pool can aid in the prevention of accidents. This pool cover neither replaces common sense or individual responsibility.
