

safety covers

FOR SWIMMING POOLS

pool safety cover with safety bars

Reliable

- Meets French standard NF P90-308.
- 3 year warranty.
- Quick and easy installation.
- Two interchangeable abrasion resistant strips underneath the cover to protect it from damage from coping edges.

Cost Effective

- Less evaporation.
- Prevents heat loss.
- Reduces water chemical treatment and maintenance of pool.
- It replaces the need for a fence for safety and a pool cover for heat loss.

Convenient

- Easy to use
- Close it and forget it: the pull strap makes closing the pool cover easy. Once closed and locked, your pool is completely safe. There is no need for constant supervision and you have complete piece of mind.

Manufactured from a highly resistant textile membrane of PVC coated polyester. Treated with an anti-fungus and anti-dirt coating on both sides. The cover is strengthened by high grade anodized aluminum bars placed across the width of the pool on the underside of the cover.

“Pool Safety is NO Accident !”

The cover is secured by straps running the length of the pool. Fixed to the surrounding terrace with retractable stainless steel pins at one end and with ratchets to ensure the cover is pulled taut.

Available in blue/beige, green/beige or beige/beige

Also available is a LIGHT version of the safety cover. The Light Safety Covers works with two bars of anodized aluminum on the top edge of the pool.
